

OUR SOLUTIONS TO THE PROBLEMS

High levels of waste across value chains

SOLUTION

Valorise side streams and processing waste streams to create zero-waste value chains

Overfishing of some species, underutilisation of others

SOLUTION

Develop new food products, and promote underutilised low trophic species

Energy intensive processes

SOLUTION

Go beyond the state of the art and deploy energy efficient processing and fractionation techniques

Limited consumer perception

SOLUTION

Promote the positive nutritional, health, and environmental benefits of consuming underutilised species and provide capacity building

Innovative Approaches for Marine and Freshwater Based Ingredients to develop Sustainable Foods & Value Chains
